Policy Statement

1. Mutiny In The Park Ltd intends to comply with GDPR or the same as subsequently enacted into UK domestic law at Brexit.

2. We will therefore:

1. Only process as much personal data as is necessary for the services we supply.
2. Only hold such data for so long as necessary for those purposes. In this connection we have decided that ten years following the last contact with an individual is usually an appropriate period to hold data covering the legal limitation period (six years) and a moderate margin. As in most cases this is only archived data, not sensitive, not dangerous and will not be used there seems little risk to data subjects.
3. Only process such data on grounds for lawful processing provided within GDPR Article 6.
4. Send or otherwise provide appropriate notices (GDPR Articles 13 and 14) to those whose personally identifiable information ("Personal Data") is processed by us including our employees, and individuals or individuals within partners who supply us with goods or services. We will also send such notices to individuals within organisations to whom generic marketing communications (eg newsletters) are sent.
 - Not engage in direct marketing to clients or prospects otherwise than in accordance with the relevant legislation and guidance from the ICO.
 - Utilise appropriate organisational and technical measures to ensure that Personal Data processed by us is kept secure.
 - Where we use third party data processors we will choose them carefully with a view to their data security and compliance with GDPR and have GDPR compliant contracts with them.
 - Not transfer Personal Data (which includes giving third parties access to it within our IT system) to recipients located outside the European Economic Area and the UK without confirmation from our Data Protection Officer that such transfer is lawful.
 - Update this document from time to time so that it remains an accurate record of our data processing activities and policies.

3. We conclude that where we hold and process such personal data for the purposes of direct marketing to those individuals' employers we should, unless guidance from the ICO says otherwise, either:

1. obtain consent to that direct marketing from the individuals and send the notices required by Articles 13 and 14 to the individuals; or
2. be satisfied that we have a legitimate interest in holding that Personal Data and using it for that purpose.

6. Consent

We do not engage in direct marketing to individuals except in their capacity as a member of our Company or as a conduit for our company.

Following consultation with the ICO and a review of the appropriate legislation we have concluded that as our customers have purchased through Eventbrite, Fatsoma and other ticket sales platforms we do not need consent in communicating through digital means with our customers about our related products and services. We believe that as a customer there is a legitimate interest in receiving this information which is noted as a lawful reason for processing data in Recital 47. In all communications there is an opt-out and the customer will have received an article 13 or 14 notice prior to receiving any communications at all.

We will keep the proposed replacement of The Privacy and Electronic Communications (EC Directive) Regulations 2003 and guidance from the ICO under review.

We are aware that consent under GDPR must be freely given, specific, informed and unambiguous given by a statement or a clear affirmative action and that we have to keep a record of each consent obtained for as long as we are using it. We do not currently believe that any of our processing of Personal Data, except for the sending of the commercial marketing, requires data subject consent.

7. Legitimate Interests

Recital 47 of the GDPR reads: *“The legitimate interests of a controller, including those of a controller to which the personal data may be disclosed, or of a third party, may provide a legal basis for processing, provided that the interests or the fundamental rights and freedoms of the data subject are not overriding, taking into consideration the reasonable expectations of data subjects based on their relationship with the controller.”*

We rely on legitimate interest as justifying much of our processing of Personal Data as we have assessed that the majority of our processing activity would be in the reasonable expectations of those we process data about. Our activities reliant on legitimate interest are as follows:

- **Suppliers, and partners:** Our suppliers and partners are not usually individuals so here we are dealing with the identifiable employees of our suppliers and clients who require us to deal with such individuals or self employed individuals. We require their personal data (email, office address, telephone numbers) to enable us to contact them in the context of their job. If an employee leaves a client or supplier we remove their details from the CRM and other systems (or we would be communicating with the wrong person). They expect that we will hold their contact details for this purpose.
- **Customers:** When individuals purchase products or utilise services through our trading company we have access to process this data to administer our contracted duties and send them carefully selected information about our products and services.

In all the above cases we believe that we have a legitimate interest in carrying out that processing and that the processing has no significant risk to the rights and freedoms of the individuals concerned.

8. Notices

As noted elsewhere we do not believe that GDPR should be interpreted as requiring an Article 13 or Article 14 notice to be sent to every data subject whose personal data we are processing. We do believe that such notices should be sent to:
